

# PROPERTY INTELLIGENCE POWERED BY PROVEN FIELD OPERATIONS

INO transforms verified property intelligence into trusted action through proven field operations—delivering better outcomes for insurers and the homeowners they serve.

## SOFTWARE IDENTIFIES. FIELD OPERATIONS SOLVE.

Unlike solutions that stop at data, INO combines software intelligence with the people and processes to solve real-world property issues. That's the power of INO + FIXED HHS.

### THE CHALLENGE

Insurance lacks a continuously verified source of property truth.

- Static & outdated data
- Fragmented information
- Conditions change over time
- Unverified risks create uncertainty

### THE MISSING LAYER

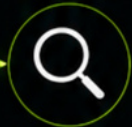

### WHY INO IS DIFFERENT

| TRADITIONAL PLATFORMS | INO PLATFORM                                |
|-----------------------|---------------------------------------------|
| ⊗ Collect Information | ✓ Verifies Conditions                       |
| ⊗ Store Documents     | ✓ Coordinates Action                        |
| ⊗ Identify Risk       | ✓ Documents Mitigation                      |
| ⊗ Manual Processes    | ✓ Field-Driven Execution                    |
| ⊗ Point-in-Time Data  | ✓ Continuously Improves the Property Record |
